DENON DP-400

HI-FI TURNTABLE WITH BUILT-IN PHONO EQ

STAY FAITHFUL TO YOUR VINYL

Give your vinyl collection the precision sound. Equipped with a phono equalizer and speed auto sensor, DP-400 plays back your vinyl in pristine quality, from vintage finds to the latest releases – all with trusted Denon sound quality.

HIGHLIGHTS	YOUR BENEFITS
Unique curved horizontal tracking angled tonearm design with auto lift-up and playback stop	Reduces harmonic distortion and automatically returns to seated position when playback ends
Built-in phono equalizer with on/off toggle	Connect the DP-400 to any amplifier or system with analog inputs or phono inputs
Engineered with a more than 100-year Denon legacy in audio excellence	Trust this high-quality and durable turntable to deliver the ultimate audio experience
Exclusive, removable dust cover with included base	Doubles as a display stand for your vinyl record covers
Weighted, belt-driven platter with auto speed sensor	Maintains accurate speed for precise sound reproduction
Multi-speed selector (33-1/3 rpm, 45 rpm, 78 rpm)	Play the widest array of vinyl records
Includes high quality MM cartridge	Enjoy precise sound out-of-the-box within minutes
Supports both MM and MC cartridges	Experience advanced flexibility that matches your audio preferences
Strong, weighted base and durable construction	Reduces external vibrations and improves audio performance

DENON 100+ YEARS “LEGACY OF FIRSTS” IN AUDIO TECHNOLOGY

www.denon.eu

Specially Engineered Tonearm
Features a carefully engineered curved, horizontal tracking angled tonearm with auto-lift and playback stop. When the vinyl reaches the end of playback, the tonearm auto-lifts preserving the excellent condition of your album. Curved tonearm design also reduces harmonic distortion, ensuring a crystal clear sonic signal every time you listen.

Strong-built Construction
Solid construction offers both the strength and high-density needed to reproduce detailed, resonance-free music. Thick cabinet walls and a weighted platter provide the optimal surface for your vinyl collection, reducing external vibration. Pair DP-400 with the rest of the Denon Design Series for a durable, high-resolution system.

Weighted, Belt-driven Platter with Auto Sensor
Integrated auto sensor accurately controls the platter, preventing unwanted speed fluctuations during playback – enjoy audio reproduction exactly as the artist intended.

Speed Selector
Supports playback at 33 1/3 rpm, 45 rpm and 78 rpm. Easily play your entire vinyl collection and enjoy its full breadth – even your cherished, vintage 78's.

Sophisticated Design Series Aesthetic
Built for High Performance and ease of set up the DP-400 features a sophisticated form factor and Solid Construction while durable Aluminium material offers a modern aesthetic.

The DP-400 matches the sleek lines of the Denon Design Series, The Renowned CEOL Series as well as Denon's Classic 43cm HiFi Components.

Compact Size
At just 41 cm in width, DP-400 is constructed to fit seamlessly into your existing Hi-Fi system. Though compact in size, it still delivers the powerful, detailed sound you expect from Denon.

Cartridge Options
Includes an MM cartridge for more precise listening and added musical detail. As a producer of the longest-selling cartridge in market, enjoy the Denon DP-400 turntable with confidence. If you prefer listening via an MC cartridge, easily swap out the existing MM cartridge to fit your audio preferences. Enjoy iconic Denon sound quality however you choose to listen.

Phono Equalizer
Built-in phono equalizer creates an open, enveloping sound stage that enlivens your cherished vinyl collection while staying true to the original recording as the artist intended. Connect it directly to a mini component or integrated amp for seamless use.

Easy Setup and Operation
Takes minutes to unbox and quickly operate for novice and seasoned vinyl fans. Plug DP-400 into your favorite amplifier or system, including the Denon Design Series, and immediately begin reconnecting with your vinyl collection – it's that easy.

Exclusive, Removable Dual-purpose Dust Cover
Removable dust cover features a modern design, elevating the overall aesthetic of DP-400 while eliminating vibration issues that affect music quality associated with attached covers. Doubling as a display stand for your album cover, place the dust cover upright on the included base and show it proudly to friends and family.

100+ Years of Firsts in Audio Technology
Founded in 1910, Denon has a deep heritage of "firsts" in audio technology – from Japan's first audio electronics manufacturer, to producing the world's first commercial CDs. This focused investment in audio R&D ensures you get the latest technology and highest quality with every listening experience.
